Re: Status of Testing Sexual Assault Kit No [REDACTED]  
State v. [REDACTED]

Dear Ms. Miller:

The KBI Forensic Science Center forwarded your letter, dated May 30, 2019, to me for review and response. The KBI Lab case number referenced in your letter ([REDACTED]) pertains to a sexual assault kit submitted to the KBI as an anonymous kit, pursuant to K.S.A. 65-448(b); that is, it was submitted by a medical facility, rather than through law enforcement. Accordingly, it is in evidence storage at the KBI, but no request for lab services was received with it, nor has one subsequently been received related to it. In order for the kit to proceed for analysis, we would need to receive a request for services from the local law enforcement agency working with the person from whom it was collected.

Please feel free to contact us if you have additional questions.

Respectfully,

Laura M. Graham  
General Counsel/AAG

cc: Eve Kemple, Assistant Douglas County District Attorney
